

The classical fly catching product to be used to catch house flies and other flying insects in any indoor area. The ribbon kills flies by its adhesive effect. Especially recommended in areas where chemical insecticide application is not desirable.

ACTIVE INGREDIENTS:

None

PHYSICAL PROPERTIES, APPEARANCE:

Sticky ribbon rolled in a small carton barrel

TOXICOLOGY

As this trap does not contain any toxic insecticide, it is environmentally safe.

ADVANTAGES:

- Efficient for several months: the glue does not dry or flow even in hot weather conditions.
- Easy to unroll and hang up.
- One ribbon can capture more than 100 flies.
- Not dangerous for the environment, contains no insecticide.
- Has a very strong sticky surface.

USES:

By grasping its cord, pull the ribbon out of the tube. Hang it up in a draught-free place. If the weather is cold, keep the product at room temperature before use.

WARNING:

Wash hands after using the product. Children must not apply it. Place the ribbon out of reach of children and domestic animals/pets.

STORAGE:

If stored in original package in a dry place protected from radiant heat and sunlight, it can be stored for 3 years.
